

Instruction

Computers: Web Sites/Pages

The CREC Council allows schools/programs to create and maintain world wide web sites for educational purposes. Web sites are avenues for educating, providing information, communicating and expressing creativity. Web sites shall be used to share information about school curriculum and instruction, school-authorized activities, and other information relating to our schools and our mission. Web sites shall also provide instructional resources for staff and students.

Materials displayed on web sites are published on the Internet. Therefore, the content should be professional quality and consistent with the education mission of the school system. Web sites shall follow standards for ethical behavior in regard to information and technology by showing respect for the principles of intellectual freedom, intellectual property rights and the responsible use of information and technology. Pages shall reflect an understanding that both internal and external audiences will be viewing the information.

Any pages or links representing CREC schools/programs shall follow guidelines and responsibilities pertaining to content standards, student records, copyright, and technical standards which are contained in the administrative regulations which accompany this policy.

Legal Reference: Connecticut General Statutes
