

PEPPM

The Premier National Technology Bidding and Purchasing Program – Offered by CREC

*“Can save you time and money on ALL
your technology purchases!”*

K-14, higher education, state & local governments and authorities in all US states may use PEPPM contracts for purchasing technology products at low bid discounted, bid protected prices.

PEPPM has over 200 product line and catalog contracts available throughout New England

PEPPM is a technology bidding and purchasing program that for over twenty-eight (28) years helped schools and agencies buy more than \$2 billion in technology products.

The Central Susquehanna Intermediate Unit solicits bids for popular lines of technology products using a bid process that satisfies all Pennsylvania legal bid requirements for K-14 schools and agencies.

The **Capitol Region Education Council (CREC)** and CSIU have partnered, whereby CREC promotes and markets PEPPM's competitively bid-protected contracts in New England.

All of the top brand computers, networking and telecommunications equipment, printers and copiers have been awarded to over 100 different vendors. Brands like Xerox, Dell, Cisco, Lightspeed, and Promethean, have contracts awarded to the manufacturer or one of their resellers. Contracts are valid January 1 through December 31 of each year.

In addition to the product line awards, PEPPM has rebid all of its catalog contracts offering buyers an array of more than 1,000 bid protected technology related brands in the areas of:

- Audio Visual Equipment
- General Hardware & Software
- Refurbished Computers & Parts
- End of Life Computer Systems & Parts
- Remanufactured Laser Toner & Ink Cartridges

With all PEPPM contracts, buyers enjoy complete bid protection backed by PEPPM's terms and conditions. You avoid the time and expense of bidding yourself and our awarded vendors promise to give you the lowest prices they will offer in your state.

Schools and agencies that use PEPPM contracts also enjoy the value-added services provided only through PEPPM, such as contract price verifications, purchase order archiving, vendor contract compliance verification, vendor interventions, and quarterly reporting.

Maximize your technology budget and minimize your administrative time
