Wilson Reading System Introductory Three-Day Workshop

The Wilson Reading System (WRS) is the flagship program of Wilson Language Training and the foundation of all other Wilson programs. Based on Orton-Gillingham principles, WRS is a highly-structured, remedial program that directly teaches the structure of the language to students and adults who have been unable to learn with other teaching strategies, or who may require multisensory language instruction.

The Introductory Workshop will cover the basic fundamentals of the system including:

- Reading research
- Principles of language structure
- How to teach language with direct, multisensory methods
- Program implementation, lesson planning, procedures and practice
- The five areas of reading and how the WRS addresses them; phonemic awareness, phonics, vocabulary, fluency, comprehension
- Creating a successful classroom environment

For More Information: Please contact Mary Janet Candeias at 860-524-4022 or mcandeias@crec.org.

Professional Development Cancellation/Delay Information:

Wilson Foundations® Intervention and Progress Monitoring Two-Day Workshop

This two-day workshop focuses on skills, materials, activities, and lesson planning of the Foundations Double Dose Lesson and how the Foundations Curriculum Based Measurement tool is used to monitor progress.

Please Note: The prerequisite for this workshop is the Foundations Level Workshop and at least one year of experience using Foundations is recommended.

Wilson Foundations® Level One-Day Workshops

Each full-day Foundations level-specific workshop provides the practice and guidance needed to effectively begin teaching the Foundations curriculum for the designated level(s).

At the completion of the workshop, participants will be able to:

- Obtain background knowledge and understand the research base of the why and how of Foundations instruction.
- Identify the skills taught in the specific Foundations level, in the following areas: phonemic awareness, phonics and word study, vocabulary, high frequency trick words, fluency, comprehension, handwriting, spelling, and punctuation.
- Understand the principles of instruction: explicit instruction, sequential and cumulative instruction, engaging multiple learning styles with multisensory instruction, repetition, and feedback.
- Prepare a daily learning plan and practice lesson activity procedures.
- Build a learning-focused classroom that maximizes instruction time.

Please note: Registration for only one session is recommended.

Level K
