Just Words and the Wilson Reading System (WRS) provide a multi-tiered system of support for students in grades 4-12. Just Words provides “just the word study” part of the WRS curriculum at an accelerated pace. This three-day workshop is a study of word structure through the six syllable types in English and the most common Latin roots.

Participants will:

- Obtain background knowledge and understand the research base of the why and how of Just Words instruction
- Understand the principles of instruction: explicit instruction, sequential and cumulative instruction, engaging multiple learning styles with multisensory instruction, repetition, and feedback
- Identify the skills taught in Just Words, which include word study (phonemic awareness, six basic syllable types in English, spelling rules, common Latin roots, prefixes, and suffixes), vocabulary study, and high frequency words
- Learn how to properly identify and group students
