Using the most current research, Supports for Pregnant and Parenting Teens (SPPT) teams will explore strategies to create meaningful and ongoing connections with expectant and parenting teens and their families. Dr. Mapp will discuss the importance of strong partnerships between home and school and the strategies that lead to improved student achievement. The workshop is designed for teams of SPPT staff, school personnel and community stakeholders to work together in developing an Action Plan that will utilize a multi-generational approach to engage families and improve educational outcomes.
