Problem Solving 101:
Teaching Kids Strategies for Problem Solving in the Real World

Why is my math grade so low? How do I become a better dancer? How can humans reverse global warming? Both children and adults are routinely faced with real-world problems, and most lack the skills and structures necessary for solving problems. This workshop is based on Ken Wantanbe’s international best-selling book, “Problem Solving 101-A Simple Book for Smart People,” and it will provide you with the tools needed to help students of all ages reach problem resolution in an effective way.

The tools and strategies provided at this workshop will allow participants to broaden and organize thinking about a problem to enable more possible solutions to become clear. Ken Wantanbe’s book is included with enrollment.

Target Audience: Grades 6-12 Teachers.

When: March 17, 2016
8:30 a.m. to 3:30 p.m.

Where:
CREC Central
Council Room
111 Charter Oak Avenue
Hartford, CT 06053

Cost:
$125 per participant (includes lunch and a textbook)
