

Getting a Grip on Gender and Sexuality in School

Description:

Although state anti-discrimination policy prohibits discrimination of students on the basis of gender identity and expression, there are few opportunities for staff to learn what it means to be transgender.

The morning workshop will focus on the basics: definitions, an exploration of the impact of gender norms and stereotypes on students, faculty and staff, and strategies for intervention K-12.

The afternoon workshop will focus on best practices in school policy, programming and safe school climate practices.
