

21st Century Community Learning Centers Networking Meetings 2019-2020

The Connecticut State Department of Education and the Capitol Region Education Council (CREC) are excited to announce the dates for the 2019-2020 21st Century Community Learning Center (21st CCLC) Networking Meetings. 21st CCLC grantees are provided with opportunities to attend three Networking Meetings each year. These meetings are designed to provide after school professionals with training and development relating to their work with students and families in out of school time programming.

Please bring a laptop or other device for note taking and access to online resources.

Nationally recognized keynote speakers will present on carefully selected topics related to the needs identified by the 21st CCLC cohort. National, state, and local resources to support the implementation of practices will be shared. Additionally, these meetings will provide activities to encourage participants to connect with a network of peers throughout the state. These connections will build a community of after school program professionals who share in best practices.

Grantees are *required* to send at least two professional staff to Networking Meetings to represent programs and disseminate information back to staff at their programs.

Friday, October 4, 2019	Friday, March 20, 2020	Friday, May 15, 2020
