

Community Relations

Relations with Youth Organizations

In order to provide the best possible educational opportunities for all students, CREC may consider properly submitted proposals for activities offering explorations of areas which are adjunct to or outside the District's curriculum.

Proposals shall be judged on their educational value, relevance to student educational levels and interests, and the availability of funds, adequate supervision and transportation and meeting all federal and state guidelines.

The Administration will work out each viable proposal in detail with the co-sponsoring organization.

Students will be encouraged to take an active part in the planning and implementation of such approved activities.

The Administration, in cooperation with the co-sponsoring organization, will devise and implement procedures to evaluate each approved activity and will report to the Council as requested.
