Construction Concept Development

Architect Selection

The Council must continuously strive to provide new facilities and/or timely renovation that will provide the best environment for all occupants within fiscal constraints. To assist the Council in the accomplishment of this objective, an architect will be commissioned for every major building or renovation project initiated by the Council.

In selecting an architect, the following criteria will be considered:

1. Training and experience including that of partners and associates.
2. Planning ability and promptness.
3. Specification writing, accuracy and sufficiency of detail.
4. Design, appearance and utility.
5. See consultant.
6. Relation with contractors.
7. Experience with government agencies.

The Building Committee and Director of Operations and Facilities will interview qualified applicants for the project and select an architect.
