POLARIS CENTER
Guiding students to learn and grow

FEBRUARY 2026
NEWS & NOTES

LIGHTS, CAMERA, ACTION!

Media Club students were busy this month producing the third installment of “The Polaris News Show.”

Here is some of our production team at work:

DAY TRIPPING

Our “Work Force Ready” students visited Manchester Community College as well as Porter & Chester Institute to get a peek at possibilities for life after Polaris. They took tours, checked out classes & were given the opportunity to ask questions about the programs offered.

UP, UP & AWAY!

STEM classes are learning about the four forces of flight. Here we have Alex launching his Lego mini-figure into the atmosphere using a lighter-than-air aircraft made with helium balloons.

Safe travels Lego person!

2025-2026 PROGRAM HOURS

**Monday, Tuesday,
Thursday & Friday
8am—2pm**

**Wednesday
8am—12:30pm**
