CONNECTICUT ALLIANCE OF REGIONAL EDUCATIONAL SERVICE CENTERS

## Fostering Trauma Sensitive Practices in Schools Free Training Module Series

**Module 1:** Introduction to Child Traumatic Stress

**Module 2:** The Neurobiology of Trauma

**Module 3:** The Traumatic Stress Response Cycle

**Module 4:** Extending the Calm Phase

**Module 5:** Strategies to Minimize Triggers and Respond to Agitation and Acceleration

**Module 6:** Strategies to Maintain Safety during Peak, De-Escalation, and Recovery

This six-part webinar includes an overview of foundational knowledge in the area of trauma and describes a variety of trauma sensitive practices that can be implemented in school settings to support student success. Participants will learn the definition, prevalence, and potential impact of trauma in children, become familiar with the traumatic stress response cycle, and learn how to create trauma sensitive environments that promote resilience via use of evidence-based approaches with students across the stages of the trauma stress response cycle.
